

Montana Earth Science Picture of the Week

WORK ALONE !

name: _____

Go to www.formontana.net. Scroll down to find the picture assigned for this week. Click on it.

1. What is the title of the picture? _____

Where is the area shown in the image located?

Read the explanation beneath the picture, and then come up with two **Earth Science-related** questions about what you've just read. **Each question must begin with the word "why."** Write your questions in the space below, and then provide **correct** answers. Write your answers in sentences!

2. question: **Why** _____

answer:

3. question: **Why** _____

answer:

4. Select one of the terms listed near the bottom of the computer screen. Find the definition of the term **as it relates to this week's MESPOW**.

term: _____ **The definition must be in YOUR OWN WORDS, using words that you understand!**

definition:

5. Next, complete the following statement. Do not provide an answer. One thing about this topic that I do not understand is (begin with why, or how) . . . **Do not provide an answer.**

Once you have completed 1-5 above, you can earn 2 extra credit points by showing the "picture of the week" to a parent or guardian. Explain it to them, and then have them sign below to indicate that you've done this.

No extra credit will be given if this is not completed and handed in on time.

DO NOT SIGN THIS
until the student has shown you the picture **AND** explained it.
